ABOUT

Bastion Supply & Logistics, the operating brand of PURECJ HOLDING LLC, is a service-disabled veteran-owned California small business serving the Port of Los Angeles / Long Beach complex and Southern California. Bastion operates as a working prime in **freight transportation arrangement and 3PL coordination (primary NAICS 488510)**, specialty trucking, warehousing & transload, and **logistics & supply-chain consulting (NAICS 541614)** — backed by **7 years of logistics operations management at Amazon scale** and **5+ years of small-business growth strategy, fractional-CFO leadership, and financial planning & modeling.**

CORE COMPETENCIES

FREIGHT ARRANGEMENT & 3PL COORDINATION

- Load planning, capacity sourcing, dispatch, and tendering across a vetted SoCal carrier network (primary NAICS 488510)
- Specialized freight trucking — local & long-distance, including bulk fuel, hazmat, and refrigerated
- Warehousing, cross-dock, and port-adjacent transload

LOGISTICS & SUPPLY-CHAIN CONSULTING · MANAGEMENT ADVISORY

- Process, distribution, and supply-chain consulting; KPI design and scorecard cadence (NAICS 541614)
- Operations diagnostics, network/route optimization, and SOP build-out — Amazon-scale operations playbook at small-business scale
- Fractional-CFO support: pricing, margin, cash management, and budget governance

DIFFERENTIATORS

- Service-Disabled Veteran-Owned** — U.S. Army Quartermaster (92Y); CA DVBE certified; SBA-certified SDVOSB / VOSB (VetCert) — federal set-aside & sole-source eligible.
- 7 years of logistics operations management at Amazon scale** — mid-mile, last-mile delivery, warehouse & yard management, sortation and reverse logistics; led 600+ associates to a **99.4% same-day delivery success rate with zero safety incidents**, and stood up a new delivery site from launch.
- Proprietary AI capture & proposal engine** — multi-model AI screens SAM.gov, DIBBS & agency forecasts against our capability profile, surfaces winnable opportunities in minutes, shreds the PWS/SOW into a compliance matrix, builds the cost estimate & price-to-win, and drafts proposal volumes — weeks into hours, human-in-the-loop; horsepower that helps a prime team *win faster*.
- UCLA Anderson MBA + fractional-CFO discipline** — managed performance across 30+ third-party logistics partners and trained 100+ operations managers; KPI design, scorecard cadence, financial planning & modeling.
- Asset-light working prime** — vetted SoCal carrier-partner network; capacity without ownership overhead; 13 CFR 125.6 / 121.103(h) compliance literacy in-house (self-performs ≥40%).

RELEVANT EXPERIENCE (principal)

- A-Game Equity Partners** (2024–present) — SoCal port-logistics acquisition advisory; specialty / regulated freight thesis.
- PURECJ HOLDING LLC** (2020–present) — small-business advisory & fractional-CFO engagements (NAICS 541614).
- Amazon** (7 years) and **U.S. Army Quartermaster (92Y)** — operational leadership as described above.

Bastion is a new entrant to public-sector contracting; the above reflects directly relevant operational experience. References available on request.
