ABOUT

Bastion Supply & Logistics, the operating brand of PURECJ HOLDING LLC, is a service-disabled veteran-owned California small business serving the Port of Los Angeles / Long Beach complex and Southern California. Bastion operates as a working prime in **freight brokerage & 3PL coordination (primary NAICS 488510)** — **FMCSA Broker of Property registration (USDOT #5796599)** — and in **management & supply-chain consulting (NAICS 541618 · 541614)** — backed by **7 years of logistics operations management at Amazon scale** and **5+ years of fractional-CFO leadership and financial planning & modeling**. Brokerage operations run on a **proprietary AI-agent platform** in which every compliance-gated action terminates in a named human.

CORE COMPETENCIES

FREIGHT BROKERAGE & 3PL COORDINATION

- Load planning, capacity sourcing, dispatch & tendering across a vetted SoCal + nationwide carrier network — **port drayage, transload, FTL / LTL** (primary NAICS 488510)
- Compliance-documented carrier vetting on every dispatch** — FMCSA safety data, insurance verification, CA DLSE §2810.4 port-drayage screening, CARB drayage-registry check — a defensible carrier-selection file per load
- Freight-invoice & accessorial audit** — demurrage / detention (46 CFR 541.6 checklist), per-diem, chassis — recovered dollars, documented disputes
- Transload & distribution coordination through vetted partner facilities — drayage → transload → nationwide linehaul, one accountable principal

MANAGEMENT CONSULTING · SUPPLY-CHAIN ADVISORY (NAICS 541618 · 541614)

- Management consulting with an operator's record** — org & SOP design, KPI / scorecard systems, operations turnarounds; **trained 100+ operations managers** and **performance-managed 30+ 3PL partners** to hard safety, quality, and cost KPIs
- Lean Six Sigma (DMAIC) & Kaizen at Amazon scale** — led 600+ associates to a **99.4% same-day success rate with zero safety incidents**; stood up a new delivery site from launch; network / route optimization & cost-to-serve diagnostics
- Fractional-CFO & growth advisory (5+ yrs)** — pricing, margin, cash management, budget governance, and financial modeling for small businesses
- Buy-side operator diligence** — SoCal logistics acquisitions: quality-of-earnings red-flag screens, deal models, and integration plans (A-Game, 2024–present)

DIFFERENTIATORS

- Service-Disabled Veteran-Owned** — U.S. Army Quartermaster (92Y); CA DVBE certified; SBA-certified SDVOSB / VOSB (VetCert) — federal set-aside & sole-source eligible.
- 7 years of logistics operations management at Amazon scale** — mid-mile, last-mile, warehouse & yard, sortation and reverse logistics; led 600+ associates to a **99.4% same-day delivery success rate with zero safety incidents**; stood up a new delivery site from launch.
- Agent-native brokerage operations platform (proprietary)** — instant bilingual (EN / 中文) quoting, 24/7 shipment portal with last-free-day & per-diem watch, automated track-&-trace and exception alerts, carrier quick-pay (day 2–3) — production AI-agent workflows with named-human compliance gates.
- Proprietary AI capture & proposal engine** — multi-model AI screens SAM.gov, DIBBS & agency forecasts, shreds the PWS/SOW into a compliance matrix, builds the cost estimate & price-to-win, and drafts proposal volumes — weeks into hours, human-in-the-loop.
- UCLA Anderson MBA + fractional-CFO discipline** — KPI design, financial planning & modeling, budget governance.
- Asset-light working prime** — vetted SoCal carrier-partner network; capacity without ownership overhead; 13 CFR 125.6 / 121.103(h) compliance literacy in-house (self-performs ≥40%).

RELEVANT EXPERIENCE (principal)

- Bastion brokerage operations platform (2026)** — designed & deployed in-house: quoting, carrier-vetting, dispatch, tracking & audit agent workflows, human-in-the-loop.
- A-Game Equity Partners (2024–present)** — SoCal port-logistics acquisition advisory; specialty / regulated freight thesis.
- PURECJ HOLDING LLC (2020–present)** — small-business advisory & fractional-CFO engagements (NAICS 541614).
- Amazon (7 years) and U.S. Army Quartermaster (92Y)** — operational leadership as described above.

Bastion is a new entrant to public-sector contracting; the above reflects directly relevant operational experience. References available on request.
